

BOW-PSO **--Mini Multimedia Server**

- 4k multimedia play -- (Video, audio, picture, PPT, web page)
- Diversification control --(Mobile phone, computer, remote control)
- Remote control--(Single screen control, Centralized control of multiple screens, Cluster management)
- Platform Docking--(Video conference system, monitoring system, screen projection system)
- Diversification management--(Power, screen brightness)

Application scenarios, enterprise hall, intelligent conference room, outdoor advertising, indoor commercial display, multi-screen exhibition hall, commercial complex and other scenes

4K Multimedia Play

Support 4K@60Hz pixel to pixel display, supports multiple windows play, with a maximum of 3 dynamic layers and unlimited static layers.

Diversification Control

Integrated hardware and software control: Support keyboard and mouse control, infrared remote control, mobile APP control.

Remote Control

Single screen control

Support mobile phone and PAD remote control, switch signal source, PPT page turning.

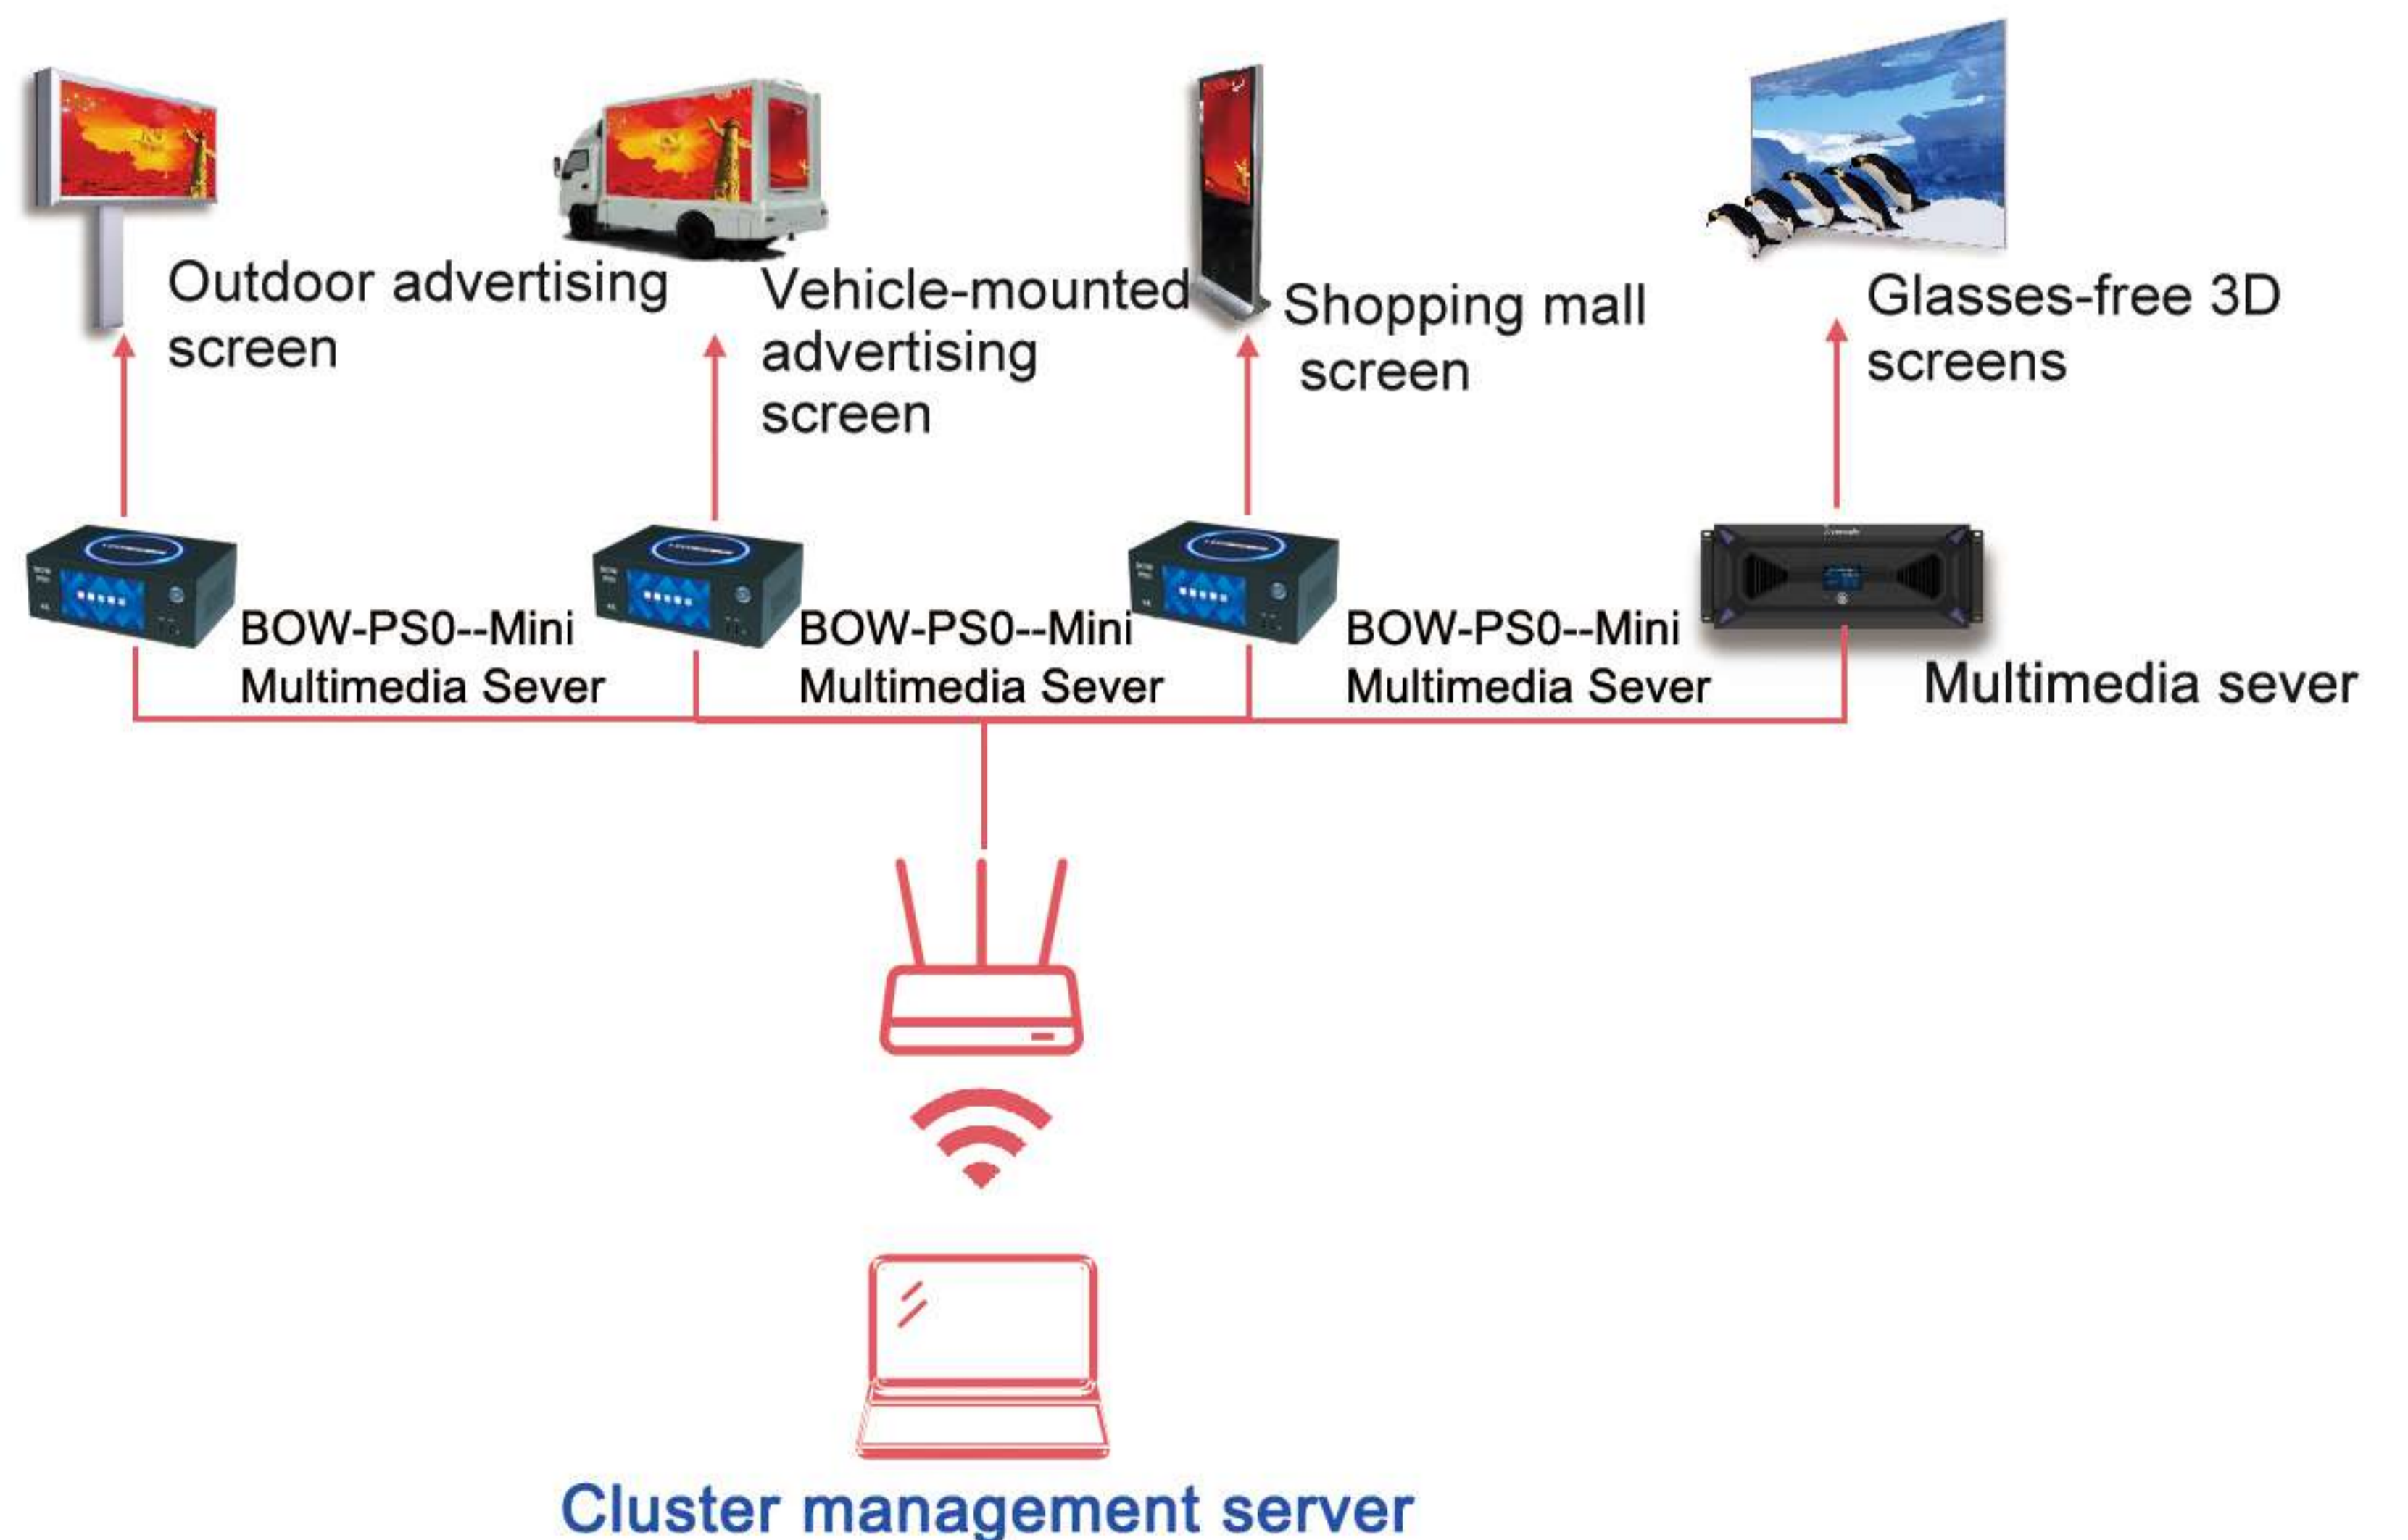

Centralized control of multiple screens

Support LAN connection control, single control terminal control multi-screen play, Supports custom connection passwords to ensure security.

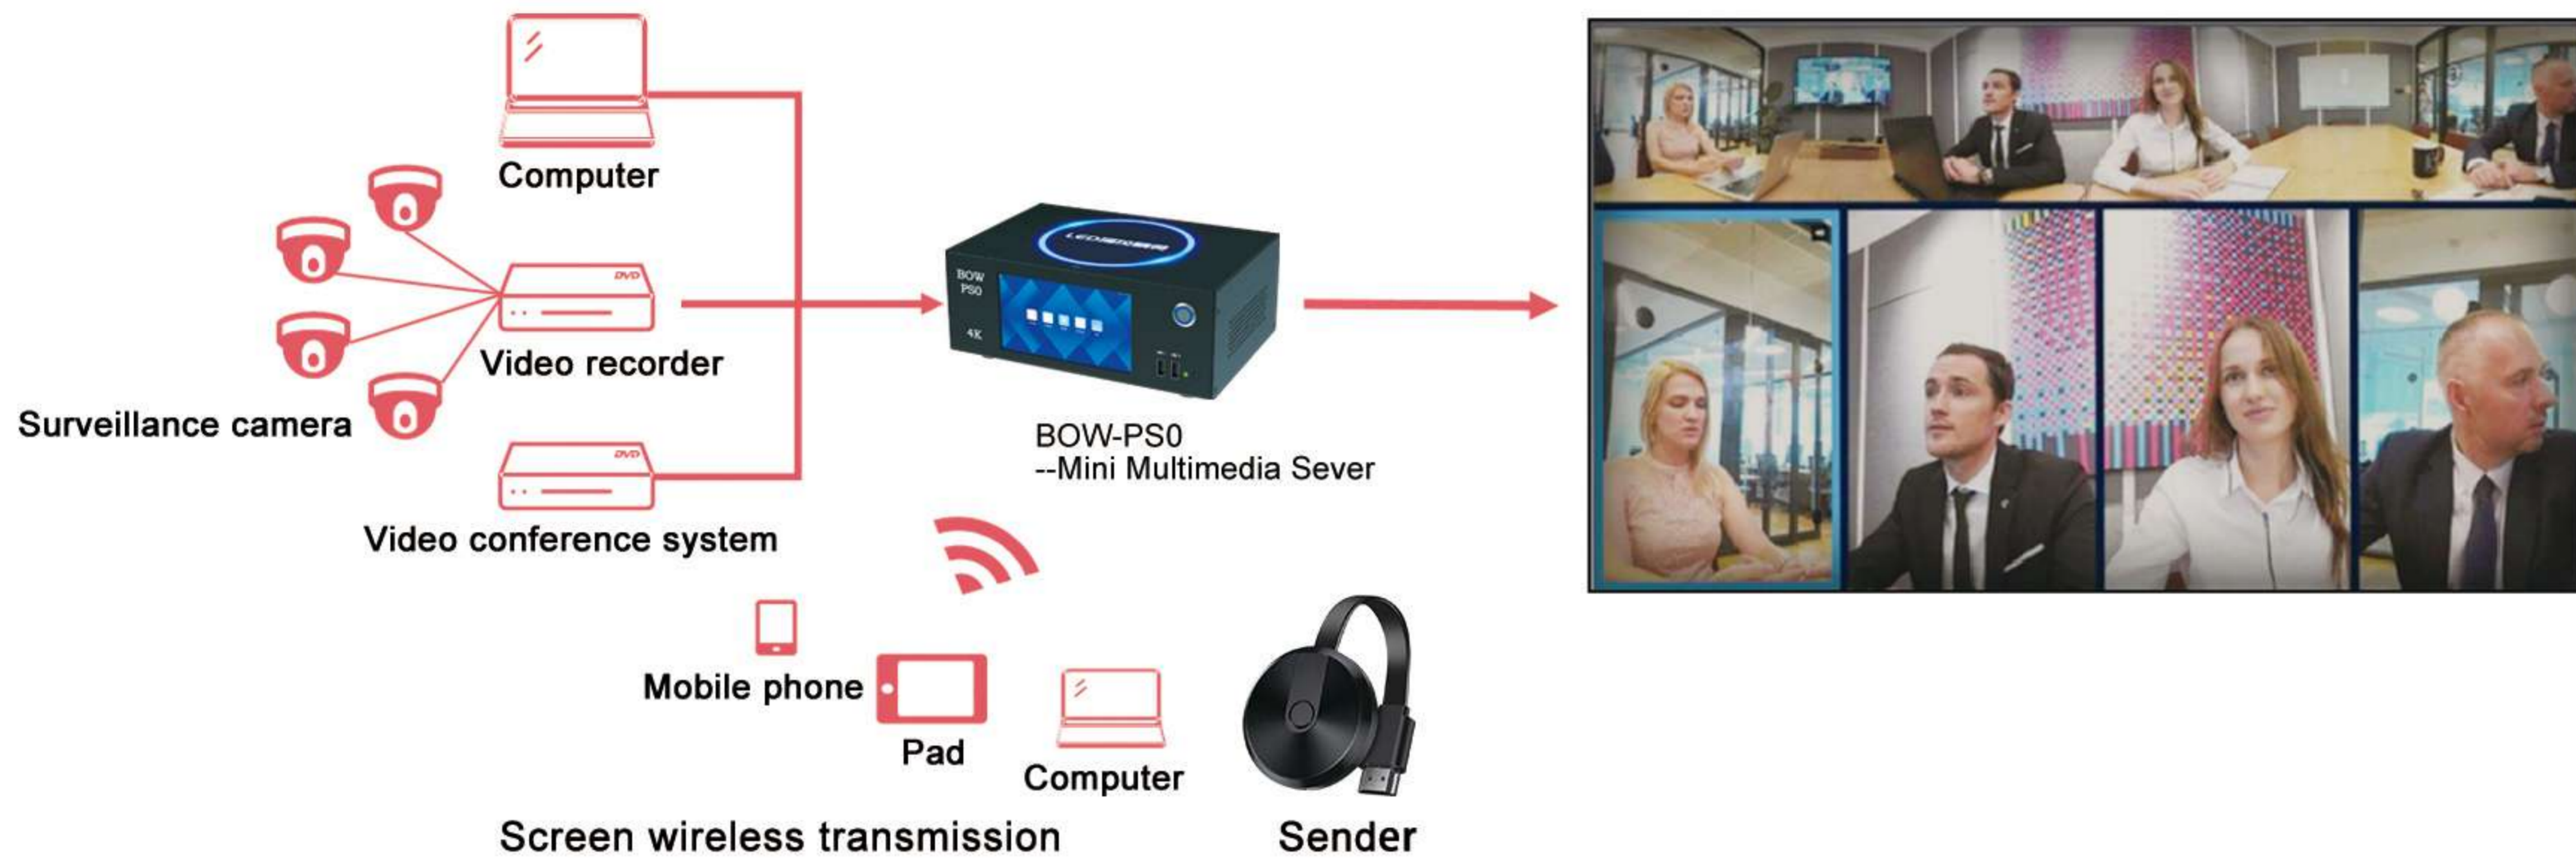

Cluster management

Support cluster management, remote information publishing. Support remote control screen power and timing switch on/off.

Platform Docking

Support docking wireless screen signal, computer signal, video conference signal, real-time monitoring system signal.

Diversification Management

Support connect PLC power box to control power , connect 2-in-1 processor or sending card to control screen brightness.

Technical Parameters

Font panel	
Port	Instructions
USB3.0*2	Connect Keyboard、 Mouse and USB flash drive
5 inch LCD monitor screen	Display operation interface
Button	On/Off
Back panel	
Port	Instructions
WIFI Antenna interface	WIFI AP/STA
SENSOR	Optional optical sensor, smoke sensor, temperature and humidity probe, radar, infrared module
USB-OTG	Support computer to transfer files directly
USB3.0	Connect the keyboard and mouse
HDMI-IN	Support 2K@60Hz input
HDMI-OUT	Support 4K@60Hz output
LAN	1000M
AUDIO-OUT	Audio output
Reset hole	Factory Default
Power	Power supply
Product specification	
Size	219*150*82mm
Weight	1.5kg
Voltage	AC100~240V 50/60Hz
Software	Android 7.1
Memory	RAM 2Gb, ROM 16Gb

Some parameters are subject to adjustment without notice.
